

Conduct your own Bio molecular tests.

Conduct your own Bio molecular tests.

1. Slice a Lemon and Orange

2. Stand two slices of each on the Bio disc.

4. PLACE THE ALCOHOL UNDER THE DISC WITH THE FRUIT ON TOP OF IT .

3. POUR TWO GLASSES OF WINE OR WHISKEY.

ALTERNATIVE Qi ENERGY WATER TEST

Amezcuæ
Body & Health

Conduct your own Bio molecular tests.

1. Make one litre of ENERGIZED WATER by standing a one-litre bottle of any drinking water on the disc, over night, in the fridge.
2. Pour the ENERGIZED WATER into four glasses.

3. Place the 'test items' in the centre of the four glasses of ENERGIZED WATER

Conduct your own Bio molecular tests.

5. PLACE THE OTHER DUPLICATE FRUIT AND LIQUID AT LEAST 5 M AWAY FROM THE ENERGY FIELD

6. ALLOW 30 MINS. TO LAPSE

Conduct your own Bio molecular tests.

COMPARISONS

FIRST look at and taste the fruit on the disc
Or from the centre of energized water

1. It has visibly tighter cell structures, it looks moist and younger.
2. Tastes sweeter and less acidic.
3. Take the orange juice and rub it on an eye lid
Or open wound – It will not sting!

SECOND look at and taste the fruit on the plate.

1. This fruit looks old and dry. It has visibly aged.
2. It tastes very acidic.
3. Do not rub this fruit in your eye it will sting.

Conduct your own Bio molecular tests.

COMPARISONS

FIRST

Look at and taste the wine or whiskey treated by the disc or from the centre of energized water.

- 1. It is visibly lighter, reflects more light and is viscous.**
- 2. Tastes smoother and less acidic.**

SECOND

Look at and taste the wine or whiskey NOT treated by the disc.

- 1. It is darker, reflects less light and is thicker.**
- 2. It tastes acidic and harsh.**
